## Yard Worming Policy

December	Worm with Equest Pramox to target encysted redworms and tapeworm
March	FEC and Tapeworm test
June	FEC
September	FEC and Tapeworm test

Faecal Egg Count (FEC)	Tapeworm result	Wormer chemical of choice
+ve	+ve	Ivermectin/Praziquantel combo
-ve	+ve	Double dose Pyrantel
+ve	-ve	Ivermectin only
-ve	-ve	No treatment

In addition ALL new horses to the yard must have a FEC and tapeworm saliva test. All horses must have those results returned clear or be wormed with a combined wormer 48hrs before being turned out in any field. They must then fit into the yard programme regardless of when they were last tested/wormed.
